Profile

As an interim manager, I combine many years of leadership experience across a range of industries with the ability to get up to speed in a new organisation within days. My focus areas are finance, processes and reporting.

I work closely with the people in the organisation, base decisions on numbers, and make sure results remain in place after I leave.

Services

Vacancy management

A leadership role becomes vacant at short notice. I keep operations stable and prepare the successor.

Restructuring / turnaround

Stabilise, transform and streamline finance departments.

Transformation & change

New organisation, processes and systems. I lead the change and bring the team along.

Processes / digitalisation / AI

Streamline, automate and digitise finance processes, including with AI support.

Special projects

Internal business reviews and IDW S6 restructuring opinions.

Project & programme management

Budgets, forecasts, consolidation packages.

Post-merger integration

After an acquisition, bring structures, processes and cultures together without putting daily business at risk.
